

Commercial Grade Plastic Health Guard Maintenance Care

Clean shield surfaces with an approved cleaner.

Approved house-hold cleaners and disinfectants include:

- Bleach: use 1/3 cup per gallon of water to dilute
- Isopropyl alcohol: use wipes or sprays containing at least 70% Isopropyl Alcohol
- Hydrogen Peroxide: 3-5% (do not dilute)
- Warm soapy water: gentle dish soap with clean water rinse

Spray cleaner on a soft cloth or a Microfiber cloth.
DO NOT apply cleaner directly on signage.

Apply mild pressure to wipe.
